Fees:

Course participation:
450,00 € (handout and food included)

12th Transcranial Duplex-sonography Course Berlin

UNDER THE AUSPICES OF

INVITATION

15.11.-16.11.2024

Prof. Dr. S.J. Schreiber
Prof. Dr. J.M. Valdueza

Greeting

Dear colleagues,

We are pleased to announce our 12th international ultrasound course, taking place in Berlin at the university teaching Hospital Charité.

Diagnostic ultrasound of brain supplying vessels has gained more and more importance in recent years. This is due to continuous advances in ultrasound systems and techniques which give us more and more insight into the sonographic vascular anatomy as well as cerebral hemodynamics. In this course we focus on intracranial vascular diagnostics of arteries and the venous system under physiological as well as pathological conditions. It aims at colleagues, who would like to increase their knowledge as well as their practical skills in Neurosonology. The course comprises theoretical lectures as well as tutored practicals with probands and patients.

The hosts have a long-standing teaching experience and have been holding annual ultrasound courses in Berlin as well as in several other European cities since 1999. We thank Professor Dr. Karen Gertz – Dept. of Neurology at the Charité Berlin for her support, giving us the opportunity to continue the course at the Charité venue.

We are looking forward to seeing you in Berlin!

José M. Valdueza

Stephan J. Schreiber

Program Friday, 15.11.2024

09.00-09.15	Welcome & Registration
09.15-10.00	Principles and insonation planes
10.15-10.30	<i>Coffee break</i>
10.30-11.15	Transtemporal anatomy I
11.15-11.30	<i>Coffee break</i>
11.30-12.15	Transtemporal anatomy II
12.15-12.30	<i>Coffee break</i>
12.30-13.15	Transforaminal & orbital anatomy
13.30-14.30	<i>Lunch</i>
14.45-18.00	Hands-on: insonation of healthy probands

Program Saturday, 16.11.2024

09.00-10.15	Stenoses
10.15-10.30	<i>Coffee break</i>
10.30-11.00	Occlusions
11.00-11.15	<i>Coffee break</i>
11.15-12.00	Collaterals
12.00-12:30	Acute stroke
12.45-13.45	<i>Lunch</i>
14.00-16.00	Hands-on: insonation of patients with vascular pathology
16.15-17.15	Discussion of findings comparison of methods: ultrasound – MRA – CTA – DSA
17.15-17.30	Finish

„Alte Nervenklinik“
Charité, Berlin

Brandenburg Gate
and Potsdamer Platz
at night, Berlin
